

# Fanvil CL-01 Corridor Light

Fanvil CL-01 tri-color corridor light is a medical tri-color corridor light that communicates using the 485 protocol and can be connected to the Y501 /Y501-Yseries devices. This door light is primarily installed at the entrance of patient rooms and can display three colors: red, green, and blue. With its efficient signal transmission, it quickly and accurately displays different call levels, facilitating medical staff to rapidly identify the status of a room, thereby enhancing the efficiency and safety of medical work.
